

Technical Data

A unique concept of wire core and winding technique has brought the new Larsen Cello Strings G and C as close as at all possible to the musical virtues of the classical gut string.

The core perfectly reproduces the stretching ability of gut, which allows for the best response yet in a wire core string.

LARSEN STRINGS WIRE CORE CELLO G MEDIUM, ITEM NUMBER 334.132

Core:	Wire
Winding:	Tungsten, Nickel
Tension at pitch:	14 kp/30.8 lbs
Ball end colour:	Copper
Diameter:	0,98 mm

LARSEN STRINGS WIRE CORE CELLO C MEDIUM, ITEM NUMBER 334.142

Core:	Wire
Winding:	Tungsten, Nickel
Tension at pitch:	13,5 kp/28,7 lbs
Ball end colour:	Black
Diameter:	1,32 mm
